# DETAIL MATTERS!

1.

Design is one of the key elements of building the brand and the label is one of its important components. We offer the production of unique chrome 3D labels which guarantee your products and brand not only timelessness, originality, representativeness, but also an advantage over your competitors.

2.

Raise your design by using the new **CHROM3D** technology! Production planning and also production of forms and labels take place in our own workshops. This saves your time, cost, and we guarantee 100% quality of your unique labels.

3.

The advantage of CHROM3D unique technology is rapid production of forms, low initial costs, possibility of small series and repeated production without any other initial costs.

## Properties of CHROM3D labels:

- long durability
- resistance
- easy application
- variability of shapes
- combination with 3D label
- up to the height of 12 mm
- flexible

**CHROM3D** labels gained instant popularity around the world in sectors such as engineering, automotive, marketing and more. They are often used to label ships, heat pumps, boilers, gate and door systems but also in tuning and sports industry.
